## **Quantum Intech, Inc. (dba HeartMath Inc.) Raises \$1.1 Million Growth Capital from RSF Social Finance and Calvert Social Investment Fund**

**October 4, 2010** – Boulder Creek, California - Quantum Intech, Inc., announced today that it has raised growth capital of \$1.1 million from the RSF Mezzanine Fund, L.P. (part of RSF Social Finance), with Calvert Social Investment Fund Equity Portfolio - Special Equities investment program participating in the RSF led financing. Quantum Intech is seeking to raise additional equity capital and will be featured in the launch of the Mission Markets private exchange site for social and environmental capital markets at the Social Capital (SoCaP) Conference in San Francisco October 4-6, 2010.

RSF Social Finance (RSF) is a non-profit financial services organization dedicated to transforming the way the world works with money. Since 1984, RSF has provided over \$200 million in loans and over \$90 million in grants to non-profit and for-profit social enterprises.

Calvert Social Investment Fund Equity Portfolio, through its Special Equities investment program, invests in issuers with especially promising approaches to sustainable and socially responsible investment goals through privately placed investments.

RSF was impressed with Quantum Intech’s (dba HeartMath Inc.) socially conscious mission to facilitate a fundamental shift in health and well-being for individuals, organizations and their employees.

The company’s award-winning emWave Personal Stress Reliever mobile technology and Stress Relief System and HeartMath Revitalize You! online video-based learning program facilitate employee health and bring a significant financial return on investment to the employer.

Deborah Rozman, CEO of Quantum Intech/HeartMath Inc., says, “ROI-driven HeartMath programs are based on 18 years of published research that demonstrate the critical link between emotions, heart function and cognitive performance. The instant feedback from the emWave, combined with the training, enables people to reset their reactions to stress, increase their resilience, and achieve behavior change.”

Pre and Post-assessments of over 5000 employees and individuals found that the HeartMath programs and technologies consistently reduce clinical stress factors including:

- 50% drop in fatigue
- 46% drop in anxiety
- 60% drop in depression
- 30% improvement in sleep.

An independent actuarial analysis of one self-insured organization showed 2:1 ROI for the first year with projected 4:1 ROI in the second year – and an almost 59% reduction in metabolic syndrome (3 or more major risk factors for disease).

“HeartMath programs provide a sustainable anchor for behavior change, resulting in both improved wellness for the individual and reduced health care costs for the organization. The RSF and Calvert funds will enable the company to implement growth plans that will empower millions of people to achieve these same results,” states Catherine Calarco, Quantum Intech and HeartMath SVP Sales & Marketing.

HeartMath has been named one of the Bay Area's "Best Places to Work" by the Silicon Valley/San Jose Business Journal and the San Francisco Business Times for the past two years. The Company also received a high score on B Corps "B Impact Assessment" with 4 stars for Accountability and for its direct impact on health and beneficial products and services for consumers. B Corp assesses how businesses meet social and environmental performance standards and solve social and environmental problems.

### **About Quantum Intech**

[Quantum Intech](http://www.heartmath.com) (dba HeartMath Inc. [www.heartmath.com](http://www.heartmath.com)) is a cutting-edge technology development and high performance training company providing a range of unique services, programs, products, and technology to improve health and well-being, while dramatically reducing stress and boosting performance and productivity. Research studies by Quantum Intech's non-profit affiliate, Institute of HeartMath, have demonstrated the critical link between emotions, heart function, and cognitive performance. HeartMath studies have been published in numerous peer-reviewed journals such as American Journal of Cardiology, Stress Medicine, Preventive Cardiology and the Journal of the American College of Cardiology. HeartMath's organizational and healthcare clients include Sabre, Redken, Stanford Hospital, Duke Medical Center, Scripps Center for Integrative Medicine, Kaiser Permanente, as well as dozens of school systems and thousands of health professionals around the world.

### **About RSF Social Finance**

RSF Social Finance is a non-profit financial services organization dedicated to transforming the way the world works with money. Inspired by the work of Rudolf Steiner, RSF offers investing, lending, and giving services that foster social and spiritual renewal. In partnership with a community of investors and donors, RSF has made over \$200 million in loans and over \$90 million in grants since 1984 to for-profit and non-profit social enterprises in the areas of Food & Agriculture, Education & the Arts, and Ecological Stewardship. Underlying all of RSF's work is a spirited conversation about the role that money can play in the development of humanity ([rsfsocialfinance.org](http://rsfsocialfinance.org)).

### **About Calvert**

Calvert is an investment management company that offers a broad array of mutual funds and separate accounts to institutional investors, retirement plans, and financial intermediaries and their clients. The firm manages over 50 equity, bond, cash, and asset allocation strategies, many of which integrate sustainability and corporate responsibility research as part of their investment mandate. Calvert Social Investment Fund Equity Portfolio, through its Special Equities investment program, invests in issuers with especially promising approaches to sustainable and socially responsible investment goals through privately placed investments ([Calvert.com](http://Calvert.com)).

### **About Mission Markets**

Mission Markets operates a private exchange for the social and environmental capital markets. The Mission Markets platform provides socially and environmentally responsible companies, organizations, and projects with access to mission aligned capital, and provides investors, investment advisors and other financial professionals with an efficient way to evaluate, invest in and monitor sustainable investment opportunities ([MissionMarkets.com](http://MissionMarkets.com))
